Web Dev *(WordPress, Vue.js),* **AI Automation, Scripting & DevOps:** *(N8N, Qdrant, PostgreSQL, Python, Docker, GitHub),* **Communication & Digital Marketing** *(Digital PR, SEO, Social Media),* **UI/UX** *(Figma, Adobe Illustrator)*

PROFESSIONAL SUMMARY

Interdisciplinary systems thinker with 10+ years of experience across public health, digital communications, and product development. Led national campaigns and IT initiatives at Nigeria's Centre for Disease Control and Prevention (NCDC), focusing on ethical messaging and stakeholder engagement. Committed to exploring how open-source tools, automation, and inclusive design can support equitable access to technology. Interested in bridging theory and practice through research on human-centered systems, digital infrastructure, and the role of AI in shaping learning and governance - especially in underserved contexts.

WORK HISTORY

04/2025 – 10/2025 **PRODUCT MANAGER**

SkilledUp Life *– Manchester, United Kingdom*

Key Responsibilities:

- Spearheaded onboarding and process improvement for distributed volunteer teams, reducing ramp-up time and increasing contributor retention.
- Designed and implemented CI/CD pipelines, automated workflows, and QA strategies to support scalable development.
- sprint planning, GitHub ticketing, and performance reviews in collaboration with product managers and HR.
- Facilitated cross-functional collaboration between frontend, QA, and UI/UX teams within an Agile framework.
- and maintained contributor playbooks, coding standards, and testing infrastructure documentation.
- Supported recruitment, interviews, and performance management for technical volunteers.

Key Achievements

- Refactored and documented the frontend architecture for stability and scalability.
- Developed a new testing framework aligned with the refactored codebase, improving coverage and automation.
- Created a comprehensive documentation system to ensure continuity and knowledge transfer.

- Supported the development of core product epics/modules including Company Account Management and Volunteer Account Management.

09/2023 – 03/2025 **DIGITAL MARKETING SPECIALIST**

Brain Empire Limited *– Torrance, California, United States of America*

- Develop and implement digital marketing and advertising campaigns across various platforms, managing the full marketing stack including platforms, funnels, email marketing, search engine optimisation (SEO), and analytics (Google/Facebook)
- Develop and maintain optimised e-commerce (Shopify) and affiliate marketing (WordPress) websites, aligning website content with marketing strategies to promote products and services.
- Lead UX/UI design, including web design, e-book design, and other digital publications, from concept to implementation, ensuring alignment with marketing and branding guidelines.
- Contribute to business development efforts by providing data analysis and market insights to inform marketing strategies and identify new opportunities.

01/2024 – 03/2024 **STUDENT MENTOR**

The University of Salford *– Manchester, United Kingdom*

- Provided guidance, support, and mentorship to students through regular one-on-one sessions and group activities, fostering a positive learning environment.
- Developed and implemented personalised mentorship plans to address the unique needs and goals of each mentee.

01/2024 – 06/2024 **WORDPRESS WEB DEVELOPER/DIGITAL MARKETER**

Ash Creative Digital, Ltd *– Middlesbrough, United Kingdom*

- Developed a WordPress-powered web platform for a business listing service.
- Provided branding and digital marketing services to support the platform, including content development and social media management.

03/2021 – 02/2023 **COMMUNICATION AND ADVOCACY, REDISSE PROJECT**

Nigeria Centre for Disease Control and Prevention (NCDC) *– Federal Capital Territory*

- Identified optimal project communication opportunities
- Executed a comprehensive project communication strategy to leverage these opportunities, through national project events.
- Provided support for subnational policy implementation for the REDISSE project.

02/2020 – 12/2020 **KNOWLEDGE MANAGEMENT, COVID-19 PANDEMIC RESPONSE**

Nigeria Centre for Disease Control and Prevention (NCDC) *– Federal Capital Territory*

- Led documentation of Nigeria's national COVID-19 response, encompassing systems, processes, and people through media, narrative photography, and digital storytelling.
- Spearheaded the integration of digital communication technologies for information dissemination and rumour management during the pandemic.

Key achievements include:

- Documented and communicated the NCDC's pivotal role in Nigeria's COVID-19 response, enhancing public understanding.
- Facilitated the adoption of digital communication tools for timely pandemic information sharing.
- Trained call centre staff to leverage communication technologies effectively.

10/2017 – 01/2020 **TECHNICAL ASSISTANT TO THE DIRECTOR GENERAL ON COMMUNICATION**

Nigeria Centre for Disease Control and Prevention (NCDC) *– Federal Capital Territory*

- Oversaw corporate communications, ensuring high-quality outward-facing content and brand consistency.
- Advised the Director General on policy, strategy, and operational frameworks, with a focus on brand identity, visibility, and digital media.
- Developed and executed a two-year communication strategy, encompassing public relations/press engagement, internal communication, social media management, and partner relations.
- Led the documentation of key processes, policy development at the NCDC and the National Reference Laboratory (NRL) Abuja.
- Led the development of communication resources across NCDC campuses nationally
- Led communications for international conferences and regional public health simulations
- Facilitated media training for spokespersons.

Key achievements include:

- Maintained consistent brand messaging and quality content across NCDC communications.
- Shaped NCDC's strategic direction, emphasising digital media utilisation and brand strengthening.
- Successfully executed a comprehensive communication strategy, enhancing the NCDC brand globally.

HOBBIES

I am passionate about using my skills to make a positive impact on others and find deep fulfilment in helping people solve problems. In my spare time, I enjoy a mix of tech-focused and recreational activities:

- **Tech & Creative:** I am fascinated by immersive technology and enjoy exploring virtual reality experiences with my Meta Quest 3. I am also enthusiastic about programming and building tech products; I am constantly seeking to expand my skills in this area and enjoy the challenge of creating innovative solutions.
- **Active & Recreational:** I enjoy the strategic and immersive nature of simulation games (particularly flying simulations like Microsoft Flight Simulator) and find it rewarding to master their complexities. I also enjoy cycling to stay active and appreciate the outdoors.
